

PHYTO LAB
COSMETICS

Advancing Beauty and Cosmetics with
Natural and Healthy Formulations

We have one and only one focus – to make the
best beauty products with the highest quality
formulations.

Custom Formulas & European Quality

We offer custom product development, unique formulas, complete turnkey product launch, componentry sourced from high quality manufacturers in Europe and other reputable manufacturers around the world, competitive pricing, short lead times, quick runs and consumer accepted Italian and European capabilities and heritage to give your brand a premium edge.

Natural & Organic Formulations

Our color cosmetics are made with natural and organic ingredients that are superior to anything on the market. Our R&D capabilities with natural and organic go back almost 20 years. We will help make your brand dream a reality. We can work with you to develop the highest quality products custom made for your brand or you can choose from our private label formulas ready to launch.

Quality and Scale

If you want a cutting-edge formula to make a difference in the world, PHYTO LAB can deliver results and at scale. Our factories are able to do production runs of tens and hundreds of thousands of units per day
